

I strongly object to the FCC trying to overturn NJ'[s do not call list.

The people of NJ have spoken. It is our choice. What legal basis does the FCC have to challenge the do not call law? Interstate Commerce is not affected. I have voluntarily chosen to list my name to not be called. This is my right. If the calling companies believe they have the right to call me, let them pay my phone bills. If they call me on a cell phone that is harassment and will cost us consumers money.

I am not a nut job. I am a Nj attorney who is upset at the feds constatly interfering in my and my state's rights. Thank you for ypur time. I hope that someone will actually read this letter, and not send me some form letter which does not ever refer to any on the content of my letter.

Richard Benning, Esq.
Proud to be a New Jersey Attorney
